

FAJAR AZIZ KURNIAWAN

WEBSITE DEVELOPER | FULL STACK DEVELOPER

Asrama Ex Brigif 5 Jangli Semarang | jrzfjr5@gmail.com | jariz.my.id

SUMMARY

Fullstack Developer experienced in building fast, scalable systems with TypeScript (NestJS, Next.js, Nuxt.js, React.js) and Golang (Gin, GORM), backed by solid fundamentals in HTML5, Tailwind CSS, and modern data layers like Prisma. Freelance background delivering reliable end-to-end solutions, from database design to deployment with Docker and Git. Currently pursuing a computer science degree while working on real-world projects, and looking to bring strong API architecture and frontend skills to a growing engineering team.

WORK EXPERIENCE

Logika Data | Semarang, Indonesia — Full Stack Developer

December 2025 – September 2026

- Developed and maintained fullstack web applications using Next.js (frontend) and NestJS (backend), delivering scalable business solutions for MSMEs (UMKM).
- Designed and managed relational databases using MariaDB and PostgreSQL for reliable storage and efficient query performance.
- Built and enhanced a Point of Sale (PoS) system to streamline transaction processing and sales reporting for retail clients.
- Developed a backoffice management system for inventory, order tracking, and operational administration, improving business process efficiency.

Raznar | Tangerang Selatan, Indonesia — Full Stack Developer

July 2023 – April 2025

- Managed and optimized MySQL database schemas to ensure data integrity and efficient query performance.
- Developed features for Bot Ticket resulting in Easy to order.
- Implemented clean code principles to maintain code readability and simplify future maintenance.

GMEDIA | Semarang, Indonesia — Quality Assurance Intern

December 2022 – April 2023

- Conducted rigorous manual testing on web applications to identify bugs, ensuring high-quality software delivery.
- Documented and reported defects clearly to the development team, facilitating faster bug resolution.
- Ensured applications met functional specifications before deployment phases.

PROJECTS

CMIS — Construction MIS | Tech Stack: TypeScript, Next.js, NestJS, PostgreSQL

April 2026

- Built a full-stack Construction Management Information System for contractors, covering project tracking, RAB budgeting, purchase orders, invoices, and cashflow.
- Implemented role-based access control and financial reporting features to support multi-level user permissions across project teams.
- Developed the system as an office project at Logika Data using Next.js (frontend) and NestJS (backend).

PoS Pembangunan Web | Tech Stack: TypeScript, Next.js, Express.js, MariaDB

December 2025

- Built a full-stack back-office POS web app for a building-materials store, covering sales, purchasing, and expense tracking.
- Developed stock opname and master data management modules to keep inventory records accurate and up to date.
- Designed a KPI dashboard with financial reports, giving management real-time visibility into store performance.
- Developed as an office project at Logika Data using Next.js (frontend) and Express.js (backend).

Marketplace Item In-Game | Tech Stack: TypeScript, NextJS, Golang, MariaDB

June 2025

- Developed a simple Marketplace for Minecraft Server featuring Payment Gateway and Admin Panel.
- Implemented synchronized data player for Website.
- <https://store.minesive.com/>

SKILLS

HTML5	JavaScript	Node.js	Express	Git	EJS
React	Next.js	Nest.js	Nuxt.js	TypeScript	TailwindCSS
Prisma	Docker	Golang	Gin	Gorm	Microsoft Office

EDUCATION

Universitas Dian Nuswantoro | Semarang, Indonesia — Computer Science (S1)

September 2024 – Present

- Relevant Coursework: Web-Based Programming, Fundamentals of Programming, Algorithms & Data Structures, Database Systems.

SMK Ibu Kartini | Semarang, Indonesia - Rekayasa Perangkat Lunak

July 2021 – June 2024

- Relevant Coursework: Web-Based Programming, Fundamentals of Programming, Fundamentals of Design System.

ORGANIZATION

Dinus Open Source Community | Semarang, Indonesia — Universitas Dian Nuswantoro

October 2024 – Present

- **Member, Programming Division** (October 2024 – October 2025) — Started as a member of the Programming Division, contributing to coding projects and collaborative learning sessions.
- **Staff/Coordinator, Programming Division** (October 2025 – October 2026) — Promoted to a leadership role within the division, overseeing programming activities and mentoring fellow members.
- **Project Manager** (October 2026 – Present) — Currently serving as the lead Project Manager, responsible for managing overall project execution, coordinating teams, and driving deliverables.

ADDITIONAL INFORMATION

Languages: Indonesia, English.

Certifications: [Competition Web Development \(ITC\)](#), [Quality Assurance Intern \(Nexa\)](#).
